

Massive US Biowar Funding Created ‘biowar / Vax Industrial Complex’ – Threatens to Swallow the West

“Main takeaway: I’m new to this subject, and after writing this article and letting it age for a day or two (always a good idea when you venture into something new and complicated), I realized that the best insight I’ve had since reading up on this and trying to make sense of it, is that massive US security state funding of bioweapons for decades has created a ‘blob’ which has gobbled up huge sections of society – including big pharma and our medical system. Our vaccine addiction is very much a result of this biowar funding. Here, I’m borrowing heavily from the ideas of Mike Benz who has described a similar phenomenon in the ‘censorship industrial complex’.

I am convinced that Benz’s work is a hugely important event which is still underestimated. It got major exposure due to a recent Tucker video, and people are starting to catch on. I can’t urge you enough to follow him on Twitter and understand what he is saying. His links and the Tucker video are below in the article. One of Benz’s central insights is that massive security state funding for years, and the need to bypass laws, leads to a ‘whole of society’ phenomenon, where the security state coopts entire sectors of society – media, academia, government, IT, etc. – in order to pursue their censorship goals. He calls it ‘the blob’. He dates its beginnings from 2016.

While thinking about this whole bioweapons / vaccine connection, I realized that it is very similar. In this case the massive funding has been going on for decades, and it has been much larger. The result of both is equally dangerous – to me, shutting down free speech is as bad as being poisoned by bioweapons and vaxes.”

“I believe this bioweapons disaster is as big, as important, and as complicated, and bears similarities, in the way that a massive amount of government funding has fostered and co-opted entire industries and sectors, creating a blob that has a life of its own, and how it is driven by the spook state. The difference between Benz and me is that he spent 5 years unraveling it, while I’ve spent a couple of afternoons (sorry, it’s all I’ve got). I’m writing this because I think it’s important, and really don’t want my kids or yours to get zapped by a psychopath sponsored super-bug.

I’ll start with nutshelling the picture emerging from the West. The heavy lifting is in Kennedy’s book:

US secret services have been obsessed with bioweapons since the end of WW2, when, in their brilliance, they embraced them as a great way to fight the USSR.

A long and grisly history of the US using them against opponents over the decades, and of testing them on their own population and other countries, all kept top secret.

Vaccine development is inherent in bioweapons development, because the whole idea of bioweapons is to invent one, and then come up with a vaccine for it, so that you can use it on your opponent without your side getting sick.

The driver of gain-of-function research is not antidotes to diseases, rather invention of bioweapons.

Deep state used 9/11 to justify massive expansion of program, fed deceptively to the public as defensive measures against ‘terrorism’.

Huge amounts of your tax \$ have been spent on this, many, many billions, sucking huge numbers of brains out of science that might actually help humanity. The funding is so large that it has swallowed and corrupted the whole

medical, pharma, academia, publishing, public health agency panopoly, with everything now focused on weapons and vaccines and pandemic response, i.e. lockdowns, censorship, etc.. A lot of the funding has come in in true spook style, through cutouts and fake 'foundations'.

This research was done all over the world, including, counterintuitively, in collaboration with the Chinese. (the book provides a good explanation of why this actually makes sense).

Covid was a US bioweapon which was released, either accidentally or deliberately.

There are currently US connected 400 bioweapons labs scattered around the world, fed by this gusher of money coming from US taxpayers.

This blob is demanding, among other things, Orwellian tracking, surveillance, and censorship, because it's a 'national security' issue. The whole thing has morphed into one of the biggest drivers of globalism.

Conclusion – shut the whole damn thing down before it destroys humanity.

I didn't have time to read it. I got this from an excellent and more detailed description of it from Debbie Lerman's Substack. Highly recommend reading for more eye-popping details.

I want to keep this as short and accessible as possible, so just real quick, some more good stuff. One of my favorite investigative journalists, Larry Romanoff, who for reasons I don't fully understand is not widely followed in the West, (he's an American living in China) just made a devastating info-drop on the subject. He used to be published on Unz, but that stopped for some reason, and he doesn't do social media. It is basically a book, released in the form of 17 articles. It is mostly a shocking history of US bioweapons, but also covers latest developments and also concludes that Covid was a US bioweapon leak. It's a good complement to Kennedy's book. Also didn't have time to read that one, but Romanoff's previous work is gold (highly recommend checking it out), and from skimming these, it looks like they are too.

One of Romanoff's contentions is that the CDC masquerades as a civilian health agency, but in fact is part of the US defense establishment, from which it takes its orders. Debbie Lerman reached a similar conclusion. A similar relationship was recently exposed between the RKI (Germany's version of the CDC) and the German military."
